Supporting Adult Mental Health in New Park Village

In partnership with Wolves Foundation

New Park Village TMC is proud to be working alongside Wolves Foundation to help support adult mental health in our community. You are warmly invited to come along and explore a range of activities designed to boost both your mental and physical wellbeing.

Looking after your mental health is incredibly important, and with the variety of sessions on offer, this is a great opportunity to discover what support and activities may benefit you. Wolves Foundation will be on hand to discuss your needs and identify how they can best support you.

If you would like more information about these sessions, please contact New Park Village TMC:
